

How to activate Flash with Chrome

Click the box to the left of the address bar of your Chrome browser

Not secure

Then click on Site settings

In the opened tab, in the "Permissions" section, find Flash and choose "Allow" in the corresponding drop-down menu

Flash

Allow

Close the tab.

The website page then asks you to reload the page

To apply your updated settings to this site, reload this page

Reload

Click the « Reload » button.
